

SADOLIN WOOD STAINS

Sadolin Wood Stains are colors for wooden surfaces and are used for maintaining color consistency of the wooden substrate. Imparting color to natural wood elevates the substrate to give it a premium look and enriches the wood grain

KEY FEATURES

- Easy to use
- Highlights natural wood grains
- Enhancing the color depth

APPLICATION AREA

- Interior exterior Furniture, doors and window

SADOLIN WOOD STAINS

APPLICATION METHOD

Application Tool |—• Brush or Rag

Surface Preparation |—• Clean the surface using sand paper no. 80/180.
 |—• Prepare the surface appropriately by filling all surface defects with Sadolin Wood Filler and sanding the surface with 320 No. sand paper.
 |—• Apply Sadolin wood stain as per shade required with cloth or brush. Number of passes by cloth is depend on desired color strength.

Thinning |—• With NC Thinner as per shade requirement.
