

Multi Surface Paint

Dulux Simply Refresh Multi Surface Paint is a ready-to-use interior washable paint that has been specifically formulated to easily give the perfect finish in just one coat*. With its low-drip & low splatter technology, it gives a smooth soft sheen finish to interior walls, wood & metal objects.

LOW DRIP
LOW SPLATTER

SATIN FINISH

Application Tool

Suitable for application by roller or brush.

Pack Sizes

1, 4 Lit.

Surface Preparation

- Ensure surface is thoroughly clean, dry and free from minor cracks, loose dirt, chalk, grease, fungi, algae and flaking paint. This can be achieved by sanding the surface with Emery paper 180 & 220. Wipe and clean with a dry cloth.

- Dry sanding, flame cutting and/or welding of the dry paint film may give rise to dust and/or hazardous fumes. Wet sanding should be used wherever possible. If exposure cannot be avoided by the provision of local exhaust ventilation, suitable respiratory protective equipment should be used.

- If chalkiness is observed even after thorough cleaning, the surface should be self-primed with Dulux Simply Refresh Multi Surface Paint.
- Dulux Simply Refresh Multi Surface Paint should not be applied to the surfaces or substrates which are exposed to continuous seepage or dampness.

Ready to Use

Product is supplied in ready to apply consistency.

Finishing

Stir thoroughly before use. Apply one coat of undiluted Dulux Simply Refresh Multi Surface Paint over the pre-painted/pre-coated Surface. Please ensure proper surface preparation before the application as it may affect the final properties and finish of the paint. An additional coat may be required in case Brilliant White shade is applied or if shade being applied is different from that of the pre-coated wall.

Drying Time*	Stability of Thinned Paint	VOC Level
 Touch Dry : Upto 30min. Hard Dry : 4-6 hours	 Use within 24 hrs. of thinning after mixing	< 50 gm/lit (Excluding Tinter)
Coverage	Flash Point	Shelf Life
80-90 Sqft/Lit	Non Flash	36 months

*Drying time may vary according to temperature and humidity.
