Celebrations[★]

by Manish Malhotra

Celebrate colour. Celebrate luxurious finishes, enticing stencils and patterns. Celebrate the heritage of India with a modern twist. Express exactly who you are through a glamorous, festive environment that creates the mood for good company and conversation.

Clear colours punctuated with contrasting shades - such as the orange strip - give a modern rhythm to a room that echoes with the colours of India. A warm grey punctuated with 'Water chestnut' creates contrast and add a sense of rhythm to a room, while also highlighting decorations.

"I love the grey. It's like a new beige - easy to combine. What I love about these colours, finishes and wall designs is that they dress your wall so much you do not need many artefacts or much furniture."

Manish Malhotra.

FAMILY OF COLOURS

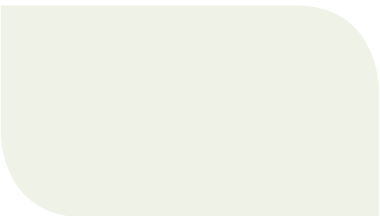

Not one colour, but many. Not one texture, but many. Find the perfect combination of colour, finish, patterns and stencils to perfectly express who you are today. Have a specific colour in mind? Use this chart to find the shade that best matches the colour you see for your interiors. Looking for the deep passion of red? Prefer to create an oasis of calm in blues and light greens. Then choose the corresponding patterns, stencils and finishes that make your interior totally unique.

NEUTRALS

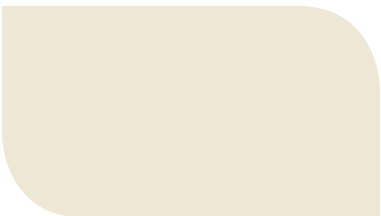

‘Neutral’ is an interesting word when it comes to colours. In fact, this neutral palette is full of meaning and character. Dark colours such as “Fog Grey” by Manish Malhotra and the choice of materials – wood, stone, metal – suggest a more sober function. Instead of “neutral”, why not think in terms of multipurpose, natural and easy-going?

WHITES, IVORY, BEIGES

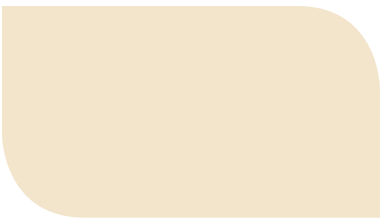

Cool and warm neutrals mix well. Balance is the keyword and you can find a perfect balance within this palette. Sometimes a touch of whimsy is exactly what a room needs, and misty whites, timeless ivory or calm beiges like Manish Malhotra's 'Water Chestnut' can provide the perfect background.

YELLOWS

For a refreshing, summery feel, go for the lighter yellows of the palette. Towards the middle, you'll find a selection of yellows that bring warmth to your home.

For something special, try 'Hidden Treasure' by Manish Malhotra. This very unexpected yellow can bring peace to your home, yet at the same time lift other colours such as magenta reds or deep blues.

ORANGES

You'll find just a touch of pink in the cooler oranges within this palette. This brings life and a modern feel to your home. The darker oranges immediately give rich energy to a room.

'Marigold Blossom' by Manish Malhotra is a very intense orange that will energise your home. "There is something interesting and different about this shade," he says.

PINKS

Like its big brother red, the pink palette shows us many faces. It can be sweet with a hint of irony, demure and classic, or surprisingly modern.

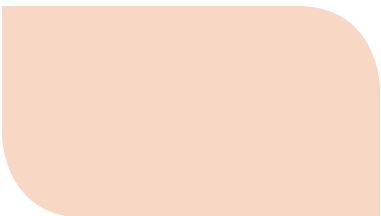

A fresh floral pink, such as ‘Strawberry Crush’ by Manish Malhotra, is a colour of joy and fun - perfect for experiments and expressing yourself. Besides that, his paler, powdery “Tickled Pink” lends a poetic touch to any interior.

REDS

The paler shades of reds bring a playful, friendly atmosphere.

The darker reds in the palette have a glamorous feel and bring power.

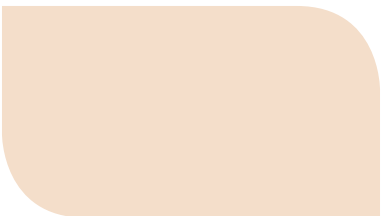

The reds selected by Manish Malhotra very definitely reflect the glamour of the stars and bring excitement to every interior. “Many shades of red are present in the costumes I design,” he says. “They stand for festivities.”

VIOLETS

The palette of blue is immense, varied, striking. Cooler natural blue, intriguing shades with a touch of pink, deeper striking blues; the palette offers lots of possibilities. Bring authenticity but at the same time glamour to your rooms - a combination that is not often found. ‘Champion Blue’ by Manish Malhotra is the perfect example of this delicate combination. “Deep blue is very much up there in fashion design,” he says.

BLUES

Many associate blue with sky and water. Instead of toning this wonderful colour down into pastel shades, why not honour the natural elements surrounding you? The intensity of the ‘Peking Blue’ by Manish Malhotra

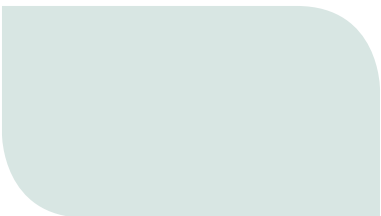

on your wall sings praise of the water outside. It is revitalising and affirmative; a clear statement that also speaks of royalty and the elements.

GREENS

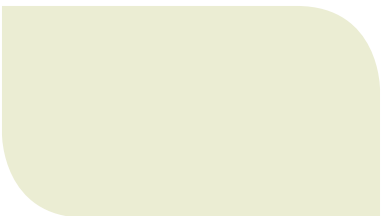

Yellow, grey and blue greens go together in charming and wildly different ways in the green palette. Sometimes, all a room needs is a modest touch of green here and there. A band of sage along a hallway or soft linden green alongside a window will connect other elements such as plants, candles and carpets. When we opt for a bolder green such as ‘Minty’ or ‘Leapfrog’, it’s to make a statement.
